Current version (continued)

Optical Variable Feature visible to the naked eye

Digital signature of bearer

Date of issue

Expiration date

Clave Unica de Registro de Poblacion CURP

Divisions and electoral years are no longer present

2-D Barcode

C.U.R.P. (Clave Única de Registro de Población) = Single Population Registration Code Clave Única de Registro de Población.

This a registration number assigned to all individuals living within Mexico, as well as Mexicans living abroad. The National Population Registry is responsible for assigning CURP numbers and issuing the corresponding certificate. It contains 18 alphanumeric characters generated from the Identification Document provided (usually a Mexican Birth Certificate, Naturalization Certificate, or migratory document) and is comprised by:

- a) The person's paternal last name, mother's original last name, and first name
- b) The person's date of birth
- c) Gender
- d) Mexican State of birth or born outside Mexico.
- e) The last two characters in the CURP prevent duplicate numbers and guarantee that the code is correct.

For Example:

Gregorio Morales Loranca born in Tlaxcala on August 31, 1994.

MOLG 940831 H TL RRR O 9

MO = Initial and vowel of Last Name **L** = Initial of Mother's Last Name **G** = Initial of First Name

940831 (two digits year, month and day of birth)

H = Gender : H for "hombre" (male) and M for "mujer" (female).

TL = Abbreviation of Tlaxcala. Each state has a two letter code and people born abroad are NE "Nacido en el Extranjero" (born abroad).

RRR = are the internal consonants of the last name, mother's maiden name and first name

O = a letter or digit code to assure there is no duplication.

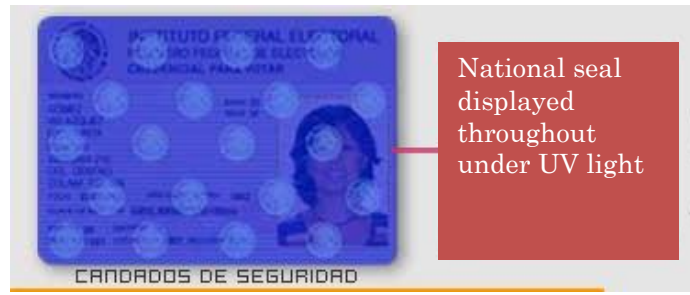

9 = Verification Digit.

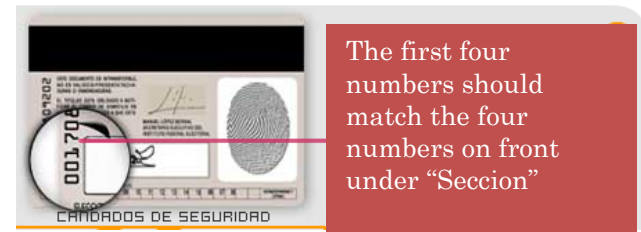

2001 Version Front

2001 Version Back

National seal displayed throughout under UV light

The first four numbers should match the four numbers on front under "Seccion"

The numbers in "Seccion" should match the first four OCR numbers on back

INNOVACIONES DE
Magnetic Stripe

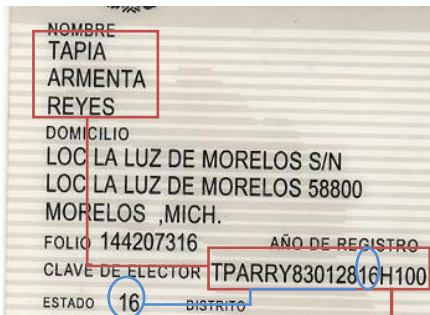

Microprint around photo border shows the bearer's full name and transmittal date

2001 Version (continued)

CLAVE DE ELECTOR:

Found on 2001 and 1991 Versions. Clave (Key) consists of:

- 1st two consonants of last name (unless names start with vowels)
- 1st two consonants of maiden name
- 1st two consonants of first name
- DOB: year, month, day (may not always be accurate)
- Next 2 digits are the State code
- Gender identifier (H: male, M: female)
- Last three digits are computer generated control numbers.

Note: Wrong information on the “Clave de Elector” should not be the sole reason for rejecting the card, but it should prompt you to examine the card carefully.
